Lemonbella is a bag and accessory line based outside of Buffalo New York. Founded by co owners Angelina & Faye.

Inspired during the early days of the pandemic to create the best hand sanitizing products, we wanted to moisturize and protect hands without many of the harsh chemicals brought about our Laventizer Hand Sanitizer. With this success brought about the idea to share a few of our favorite things. All of our bags are inspired and designed by Angelina, Faye, and their in house design team, and produced for Lemonbella.

Family is everything to both Angelina & Faye often including their spouses and children in the business with everything from packaging, ideas, modeling to the naming of many of their products which are named after daughters, sons, nieces and nephews. It's a true family affair!

We have been featured on Good Morning America, Buffalo Spree Magazine, and the Tamara Hall Show!

We pride ourselves in impeccable customer service as well as superior quality in our brand which has created our loyal following, and we know you will love our products as much as we do!
