Home & Garden
2026

Welcome to Marshall Home and Garden

Thank you for an amazing record year...

Now, let us show you how amazing
2026 will be...

We are very pleased with the new product, and we think it's some of the best design work we've done in years. We truly hope you like it and look forward to showing it all to you at the upcoming shows.

As many of you know, you have been a key part in helping us in providing more wells for people in Africa. A percentage of our profits go to help those who are not in a position to change their own life circumstances.

If you're ever interested in directly becoming involved with us on one of these projects please, let us know. We have found them to enrich our lives more than we would have thought and encourage you to find your own project to help make a difference in the world.

We truly could not have done what we have without you.

From all of us here, we hope you have a great year and thank you again for being a part of our adventure.

We actually like to talk to our customers, that's why we'll always be here with real people to take your calls and answer your questions...

But our website may now become an even better tool for answering the questions you might have. Here's why...

Videos:

We have videos of most of our popular programs which answer many of the questions people ask. It also showcases better details, features, and benefits that are not possible to share in a standard catalog. Additionally, it allows us to share tips that we have learned from other retailers in selling their products, for example, our cardinal wind spinner has become a great seller for retailers who offer products for memory gardens.

Check Inventory Status:

Our website now shows available inventory levels. If it's after hours and you want to check if we are in stock on an item, it will not only give you the answer but will pull it out of available inventory when it's ordered regardless of the ship date. (If you write your orders over the phone with us, we're happy to do this for you).

Merging a catalog with the web and the power of QR codes

We have begun to use QR codes so you can easily scan a product in our catalog to see the spinner in motion or listen to the tone of a chime, or learn more about a particular program we offer.

We are also starting to use QR codes on the newest spinner boxes to help show your retail customer how to assemble the spinners and provide answers and tips to the most frequently asked questions.

Our goal is to use technology to help build a better relationship with you, not an attempt to replace it.

Have a question need or problem... Give us a call we're always happy to talk.

▲ M221 (min 2) **Stoneybrook Planter, Set of 2** • 40"w • 36"w **\$149.00**

Our Trellis Planter System provides the opportunity to team up your choice of trellis with a beautiful planter base.

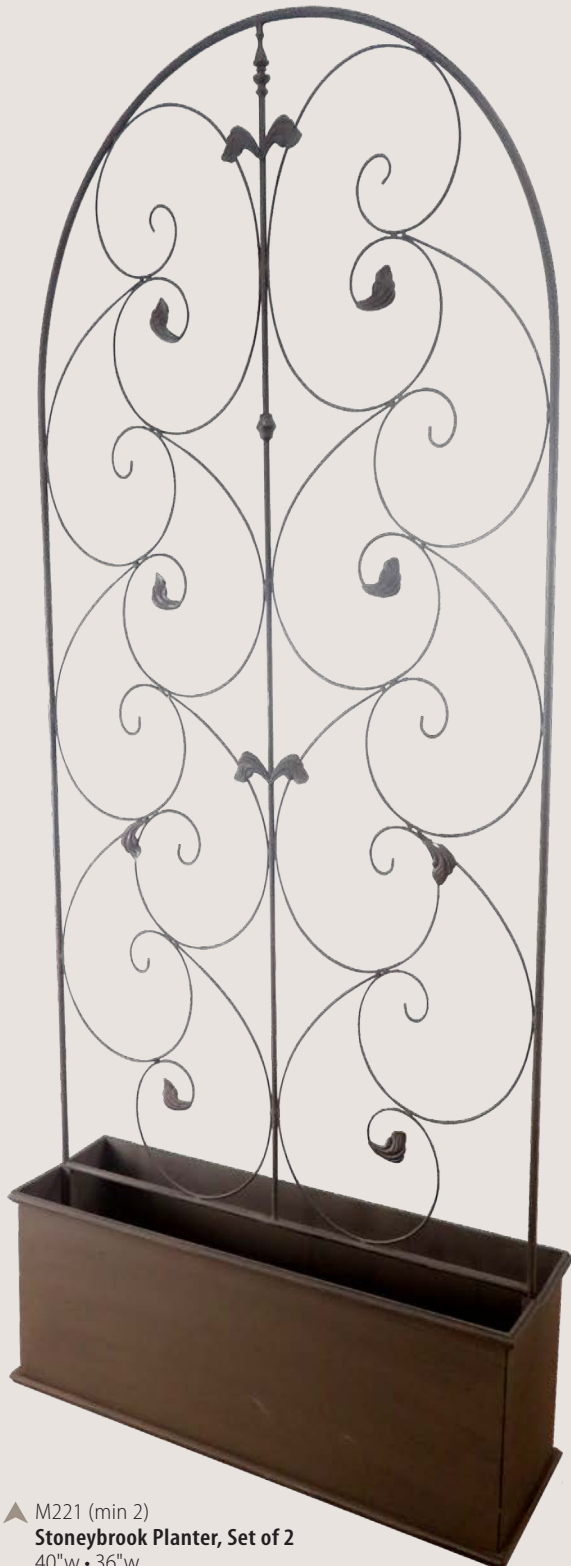

Planters are available as a set of two, in 40" and 36" wide. The trellis design is the same size as the planter and features two receiving brackets built into the planters.

When you purchase the planter bases, the two sets of requirements for the planters provide you with two 40" wide planters and two 36" wide planters. This allows you to choose either trellis top, which is available in a minimum of two pieces.

A planter trellis is perfect for creating a natural privacy fence in residential spaces, commercial environments, and restaurants.

Woodland Knoll Collection

WELCOME TO THE WORLD OF WOODLAND KNOLL

To both our surprise and delight, Fairy Gardening has found a permanent home in many Garden Centers for three simple reasons:

1. **It sells**, often bringing in some of the highest dollars per square foot sales in the store.
2. **It brings in a younger customer.** While we recognize that adults are the primary buyers of fairy gardening, the joy of creating a fairy garden with children and grandchildren opens up the world of gardening to a whole new future customer.
3. **We sell only good fairies.** Good because they sell. Good because you don't have to water or maintain them. Good because people continue to add fairies to their gardens all year.

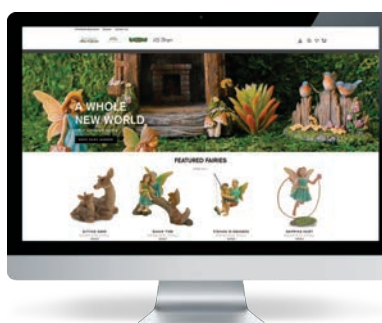

DO YOU ADVERTISE ON SOCIAL MEDIA? WE CAN HELP

All of our material can be downloaded for your use on a platform of your choice. In addition, we are developing multiple media stories to highlight your Garden Center, which you can customize for your store, and it's all FREE, call us for details.

FREE DISPLAYS ARE AVAILABLE

Yes... They really are Free

Order 40 or more SKU's, to receive a **FREE** Mountain Display. A \$299 value, for **FREE!** Item: **MGPK**
Or contact us about a custom display to match your order selection.

Mountain Display

Our most popular display is 60"w x 40"d and includes 11 elements embedded into the display including houses, ponds, stairs, and a waterfall.

MGD4060 - **Standard Display** – 60" x 40" - (Reg \$299) - **FREE with 40 Pieces**

MGD3648 - **Standard Display** (not shown) – 36" x 48" - (Reg \$249) - **FREE with 35 Pieces**

MGD4060W - **Water Display** - 60" x 40" (Reg \$299.00) - **FREE with 40 Pieces**

Water Display

Our 60"w x 40"d Water Display is embedded with walls, stairs and a large pond, providing you a clean slate to create your own story.

Our introductory Water Display Package is **FREE** with an order of 40 or more SKU's (Reg \$299)
Item: **MGPKW**

Take advantage of us... and we both win!

We have found that retailers with one of our displays normally retail twice the volume of product. **If you are a current dealer who doesn't have one of our displays, talk with us and we will work to get you one with your next fairy order.**

For existing display dealers, remember we do **offer free dye packs** to keep your tables looking fresh or 4 rolls of **free moss** to recover your display. This normally takes about 20-30 minutes to do and makes a significant impact on both your look and sales. By having a display and keeping it fresh, your fairy garden should be one of your highest dollars per square foot items in your store (and you don't have to water it or throw it out at the end of the season).

Display Friendly Packaging

Our items now feature display shelf friendly packaging. The pieces will be standing up where possible with the front row display ready (with a UPC hang tag) with the balance of the pieces being polybagged with the UPC tag on the bag.
